

CUT PROTECTION SLEEVE RANGE

Discover our range of **knitted sleeves**
with **enhanced comfort** to suit
your **cut protection needs**.

A solution
for every hand
that works

MAPA[®]
PROFESSIONAL

SLEEVE RANGE BENEFITS

Cut hazards and other injuries (abrasions, sores...) can occur in different situations when handling untrimmed metal parts, thin metal parts or assembling sharp elements, sometimes in confined spaces.

The most important consideration is to ensure you have the appropriate protection of the hand, the forearm or the arm with a good fit and that you feel comfortable with your equipment. In order to cover most of the cut protection needs, we have extended our range of cut-resistant sleeves from level B to D.

Discover the specific features of the sleeve range combining comfort and performance while protecting from cut risks on the forearms.

A combination of HDPE yarns and composite fibres adapted to each level of cut protection from **level ISO B to D** to meet your needs

Second skin effect
Seamless knitting for **optimal comfort** and **freedom of movement**
Advanced knitting platting technique provides **soft touch**

NEW

KryTech 602 | 603

A **supple and thin gauge 15** fabric for:

- ✓ fresh feel on the skin

Wrapped fibres with a soft yarn **avoid skin irritations**

Our sleeves are **Standard 100** by **OEKO-TEX®**

KRYTECH 603

APPLICATIONS & USE

Offering cut protection from level B to D, our sleeves are suitable for industries such as as white appliances, automotive, construction and glass industry.

RECOMMENDATION FOR USE

Cut-resistant sleeves must be combined with the appropriate cut-resistant glove for an optimal protection.

A simple 5 steps recommendation for a proper use of protective sleeves and gloves.

1 Ensure that the thumb slot is in place to secure sleeve position on the hand

2 Adjust and secure the sleeve thanks to the self-gripping elastic band for a comfortable fit and safer work

3 Don a cut protective glove over the sleeve with at least the same cut protective level

4 Check that the glove wrist is pulled over the sleeve to ensure continuous cut protection

5 You are now ready to work safely

Additional benefits

Washable

3 to 5 times without any alteration on performances to **extend lifespan**, **reduce costs** and **waste**

Guaranteed quality

Silicone free to prevent traces, defects on metal sheet and glass prior to painting

PRODUCT SPECIFICATION

Choose the right sleeve for your application amongst our cut-resistant sleeve range.
